ABOUT ME

portfolio

Director and Producer based in Florence, Tuscany

I started my career as a video editor and videomaker, working on various projects including commercials for local businesses. That early experience fueled a growing passion for cinema, which led me to attend intensive workshops in film history, cinematography, editing, and screenwriting.

After graduating from the New York Film Academy, I was hired by the institution, where I work as both an Instructor and Technical Assistant. This opportunity allowed me to deepen my technical knowledge while developing an educational approach to filmmaking. Since then, I've continued to collaborate with various educational institutions, offering workshops, mentorship, and practical training.

Over the years, I've taken on key creative roles in several film projects, including working as Co-Producer on *Ants*, a short film directed by Federico Spiazzi. My work spans both directing and producing, with a strong foundation in the technical and creative sides of film production.

Regista e Produttore con base a Firenze, Toscana

Ho iniziato la mia carriera come video editor e videomaker, lavorando a diversi progetti pubblicitari per aziende locali. Questa prima esperienza ha acceso in me una crescente passione per il cinema, che mi ha spinto a frequentare workshop di storia del cinema, fotografia, montaggio e sceneggiatura.

Dopo essermi diplomato alla New York Film Academy, sono ho iniziato a collaborare con la stessa accademia, dove lavoro come Istruttore e Assistente Tecnico. Questo ruolo mi ha permesso di approfondire le mie competenze tecniche e sviluppare un approccio formativo al linguaggio cinematografico. Nel corso degli anni ho collaborato con diverse realtà educative.

Negli anni ho ricoperto ruoli creativi in numerosi progetti cinematografici, tra cui quello di Co-Produttore per il cortometraggio *Formiche*, diretto da Federico Spiazzi. Il mio lavoro spazia tra regia e produzione, con una solida preparazione sia tecnica che creativa in tutte le fasi della produzione cinematografica.
